

FE: avoid stack overflow on star projection of enhanced type parameter

<https://github.com/JetBrains/kotlin/pull/4521>

[Gradle, MPP] address KT-42755 Cocoapods plugin using backslashes on Windows

<https://github.com/JetBrains/kotlin/pull/4519>

Copy locals in addition to instructions when inlining finally blocks

<https://github.com/JetBrains/kotlin/pull/4518>

JVM IR: Don't generate redundant CHECKCAST when type is subtype of target

<https://github.com/JetBrains/kotlin/pull/4515>

FIR checker: COMMA_IN_WHEN_CONDITION_WITHOUT_ARGUMENT

<https://github.com/JetBrains/kotlin/pull/4514>

KT-45777: Take snapshots and compute changes for Kotlin classes

<https://github.com/JetBrains/kotlin/pull/4512>

KT-45777: Refactor IncrementalJvmCache to support classpath snapshotting

<https://github.com/JetBrains/kotlin/pull/4511>

FIR IDE: add APIs to retrieve PsiType for FIR UAST

<https://github.com/JetBrains/kotlin/pull/4507>

upgrade some things

<https://github.com/JetBrains/kotlin/pull/4505>

JVM_IR: generate instance fields even when reification is needed

<https://github.com/JetBrains/kotlin/pull/4503>

IR: add optimization pass for equals call from object instance

<https://github.com/JetBrains/kotlin/pull/4496>

JVM IR: Map LOCAL_FUNCTION_FOR_LAMBDA return type of Nothing to V in

<https://github.com/JetBrains/kotlin/pull/4495>

add sample for text version of elementAt

<https://github.com/JetBrains/kotlin/pull/4494>

Custom runtime classpath provider

<https://github.com/JetBrains/kotlin/pull/4493>

WIP: Context receivers

<https://github.com/JetBrains/kotlin/pull/4492>
